**T**HREE girls today in fashion dressed, hobbling down the street abreast. Remind one, as they struggle there of the old sack race at a county fair.

Among the things I consider rare is a man behind a barber chair who waits for the patron to declare that he wants tonic on his hair.

Benjamin Franklin, so they say, saw lightning flash one summer day. Said Benjamin, "I do opine, that certainly is an electric sign."

Things that we used to wear. Things that we used to do. Though once the height of fashion are now considered taboo.

Custom has changed our manners. Custom has changed our style. But the man who is always in fashion is the man who wears a smile.

**CHADBOURNE CASE AGAIN GOES OVER**  
 Frank Durst, injured by Fall on Pavement Still Unable to Appear in Court.

Frank Durst, street car conductor, who was injured Tuesday night when his head struck the pavement on Central avenue, as he fell or was pushed from a Traction company car, was still unable to appear in public court this morning against M. O. Chadbourne, manager of the street car line, whom he charges with assault and with having pushed him from the car, and the case was again postponed until tomorrow morning.

Durst remains weak and is suffering with the pain in his head caused by the fall, it is said.

Andrew Moorehead, a carpenter employed by the Santa Fe, was fined \$5 this morning for being under the cheering influence. Mr. Moorehead returned last night from Topeka where he had been in the railroad hospital. He met some fellow carpenters on his arrival and told the court that the companionship proved a trifle too convivial for him.

E. A. Held was locked up for ten days on a drunk and disorderly charge. Held loudly asserted that he would never remain in jail, when the chief was forced to conduct him somewhat forcibly from the court room to the lockup. But a popular drunk dispensing gentleman who is now serving thirty days for gambling and who happened to hear the remark, whispered through the door: "That's what I thought, but you see I'm here."

**BRANDON LEAVES FOR HOME IN INDIANAPOLIS**  
 Man Who Had Narrow Escape from Death by Bi-chloride Poisoning Able to Travel.

Henry G. Brandon, for the past five weeks a patient at St. Joseph's hospital and whose narrow escape from death as the result of bi-chloride of mercury poisoning, caused a sensation here and in Indianapolis, his home, has recovered sufficiently to travel and will leave for Indianapolis tomorrow evening accompanied by his mother, who has been with him during his stay in the hospital.

Brandon, who is a prominent attorney in Indianapolis, took an enormous dose of bi-chloride of mercury tablets while on the eastbound Santa Fe limited train, two hours out of Albuquerque, on December 18th. He was accompanied at the time by his wife and a friend, Frederick O. Ross of Indianapolis, and was returning home from California where he had been for his health. It is believed that he was out of his mind at the time, having been in a highly nervous condition for some time. Brandon hovered between life and death for some time an operation on the kidneys finally saving his life.

Lost—Certificate of deposit, amount \$500. Issued by First National Bank of Santa Fe in favor of Mrs. H. H. Salver. The public is notified not to cash same as any indorsement is a forgery. Signed: MRS. H. H. SALVER, Guam, N. M.

**CURED HIS RUPTURE**  
 I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give all information how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 1913 Marcellus Avenue, Manhattan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or a least stop the misery of rupture and worry and danger of an operation.
